As for Farming and Labor, The Tribune has for 50 years demanded, and yet demands, that every possible dollar's worth of food and commodities, consumed by the American people, shall be produced by the American people. For this cause, The Tribune labors in its various editions 365 days in every year.

A man is judged by the newspaper he takes. He who reads The Tribune is wide awake, progressive, respectable and capable, worthy of the cor fidence of business and social friends. If you are a young man, you will live in a rut all your life (except by catering to that which is base) if you feed your mind upon newspapers, full of scandal, vulgarity and inanty. Think for a moment of the people who read newspapers of that class. On the other hand, The Tribune has probably the largest clientele of the very people who can help to improve a young man's position, of any newspaper in the United States. Associate yourself with them.
